

# AURORA LITE

# UHF RUGGED

# CRATE TAG

## 155 × 32 × 9mm

**DURABLE. RELIABLE.**  
**BUILT FOR TOUGH ENVIRONMENTS.**

The Aurora Lite is an extra-long, wide UHF RFID tag with an integrated rigid plastic shell, designed for long-distance identification and tracking of heavy pallets, storage racks and industrial assets. With a large recessed marking area, it supports custom printing and laser engraving, and is ideal for batch inventory applications.
